8 Grams PROTEIN Per Serving

100% SEA SALT

MADE IN THE USA

B.

LESS THAN 3% OF ALL VIRGINIA PEANUTS MEET THE STRICT STANDARDS OF THE SUPER EXTRA LARGE GRADE.

Virginia Peanuts are one of 4 types of peanuts grown in the U.S. – mostly in Virginia and the Carolinas. They represent only 15% of the total U.S. peanut production. While these peanuts are already considered the largest kernel size of all four types, we only source the "cream of the crop" which is the highest market grade available – Super Extra Large. Less than 3% of all Virginia Peanuts meet the strict standards of this grade. So you can be assured that we have sourced the finest and the largest available.

The Peanut Shop of Williamsburg

It all began in the back of a tiny shop in Colonial Williamsburg

...carefully selecting and hand roasting the finest Virginia Peanuts available - plump, golden, and gently blistered in our unique cooking process. And for almost 50 years, we have continued to do business in this same thoughtful way.

Our Process – Using the original recipe, The Peanut Shop Virginia Peanuts are prepared by our Roastmaster in small batches, using the time-honored recipes that cannot be duplicated by mass production methods. We handcook in golden peanut oil with no additives and no preservatives to alter the taste or the natural goodness.

Our Promise – The Highest Quality – Stringent Consistency – Worldwide Brand Recognition. Our peanuts will always be unique, distinctive and unbelievably crisp! Every batch will be visually inspected, taste-tested, and held to our gold standard which is the reason our icon brand has become the standard by which all fine peanuts are judged.

Did you know that Virginia Peanuts…

- Are equal to olive oil in heart healthfulness.
- Contain the same beneficial ingredients as red wine.
- Are naturally cholesterol-free.
- Are a protein powerhouse!
- Are rich in Vitamin E.
