About Kopper's

For over 80 years, Kopper's Chocolate has been one of the most respected specialty panners of gourmet chocolates and confections in the world.

Kopper's has been producing award-winning panned chocolate since 1937. Kopper's was the first in the U.S. to make chocolate lentils and the first to create chocolate covered gummy bears, chocolate covered espresso beans and liquid-center cordials.

Kopper's was acquired by Nuts.com in 2016 and is still a third generation family owned and operated business.

Nuts.com was founded in 1929 by Poppy Sol as The Newark Nut Company. For three generations, they've been committed to re-stocking healthy pantries with the highest quality nuts, dried fruits, snacks and pantry staples.
